# Give your flat roof a makeover

Let there be light

Give flat roofs a makeover with Skypod – the ideal way to brighten up uninspiring interior

Skypod Lantern Roof  
in Anthracite Grey  
with White interior

The image shows a bright, modern interior space. At the top, a large, multi-paned skylight with a white frame allows natural light to enter from above, showing a blue sky with white clouds. Below the skylight, a wide, floor-to-ceiling window with a white frame provides a view of a lush green landscape with trees and a garden. The room's walls are a light, neutral color, and the overall atmosphere is bright and airy. The text "Flood your home with natural light" is overlaid on the lower half of the image in a clean, black, sans-serif font.

Flood your home  
with natural light

### **Living spaces with wow factor**

Imagine creating a stylish new living space that's flooded with natural light. Imagine an inspiring contemporary design feature that will not only enhance your lifestyle but add value to your home too. Some would call it the 'wow' factor. We call it Skypod – an innovative pitched lantern roof range that's been created for today's style-conscious homeowner.

in Anthracite Grey

## **Aspirational living spaces**

Go large to create an impressive feature on your flat roof – maximising the natural light in your room

# Skypod

In the past, lantern roofs were the preserve of high-end properties. These were not only expensive, but the slightly 'industrial' design wasn't to everyone's taste. That's why we created Skypod. As well as offering outstanding looks, it costs less – and provides the perfect match for your existing PVC-U windows and doors.

*no side rafter option for  
unimpeded views*

Skypod Lantern Roof  
in White with no side rafter

Skypod Lantern Roof  
in White

## Enjoy larger glass areas

With its clean lines and sleek looks, a Skypod lantern roof will add real height and volume to your room. And thanks to a no side rafter option, you can enjoy unimpeded views.

## An energy efficient solution

Skypod can achieve exceptional U-values as low as 1.0\* – this helps minimise heat loss, meaning that you can save money on your heating bills.

\*Standard U Value is 1.2 – U-value is applicable to glass only.

# A perfect square

## **Whatever the size, Skypod squares up**

Whether you're looking for a small rooflight or large gazebo-style lantern roof, there's a solution for you. Our new dedicated frame system means that rafter bars line-up perfectly, whatever the size.

# SKYPOD

## Perfect for home extensions

Looking to extend? Make a stunning feature of a flat roof with Skypod.

# A new angle on the lantern roof

Skypod lantern roofs are great if you've got a flat roof big enough to take a full lantern. But what about the homes with smaller extensions and outhouses crying out for a little natural light? Well that's where you need our Skypod with a 35° pitch instead of the usual 20°. That means it can be made in much smaller sizes (right down to 0.5 × 0.5m) and fitted to a much smaller roof while maximising the amount of natural light into your home.

SKYPOD

### Aspirational living spaces

Create an impressive feature on smaller flat roofs and maximise natural light in your home.

# Skypod Plus

# The easy way to add more class to your glass roof

Introducing the Skypod Plus. Designed with a premium frame that looks great, is high quality and easy to install. Skypod Plus is available in black, white and grey.

Like the rest of the Skypod range, this sleek, modern lantern roof has been designed to meet the demands of design-conscious buyers.

Style-savvy people who want to let more natural light into their flat roof extension or garage conversion, but also demand contemporary design that works in harmony with their living space.

### **Premium finish**

Because we've used an aluminium frame and aluminium ridge and top rafter cappings, Skypod Plus offers a premium quality finish, for years of faithful service.

### **Multiple design options**

Eurocell Skypod Plus is available in a range of stylish options, helping you make light work of the most demanding design and installation requirements
